System 01  
2020

# SYSTEM

## 01

Reflex introduce un nuovo modo di concepire gli spazi della casa, non solo prodotti singoli ognuno con il proprio carattere, bensì più prodotti integrati per creare ambienti più complessi per il vivere quotidiano.

System 01 è il primo sistema flessibile Reflex in cui si integrano boiserie, mensole e contenitori. Le diverse modularità in altezza e larghezza permettono libertà progettuali e compositive e creano un nuovo prodotto d'arredo dai tratti netti e fortemente contemporanei.

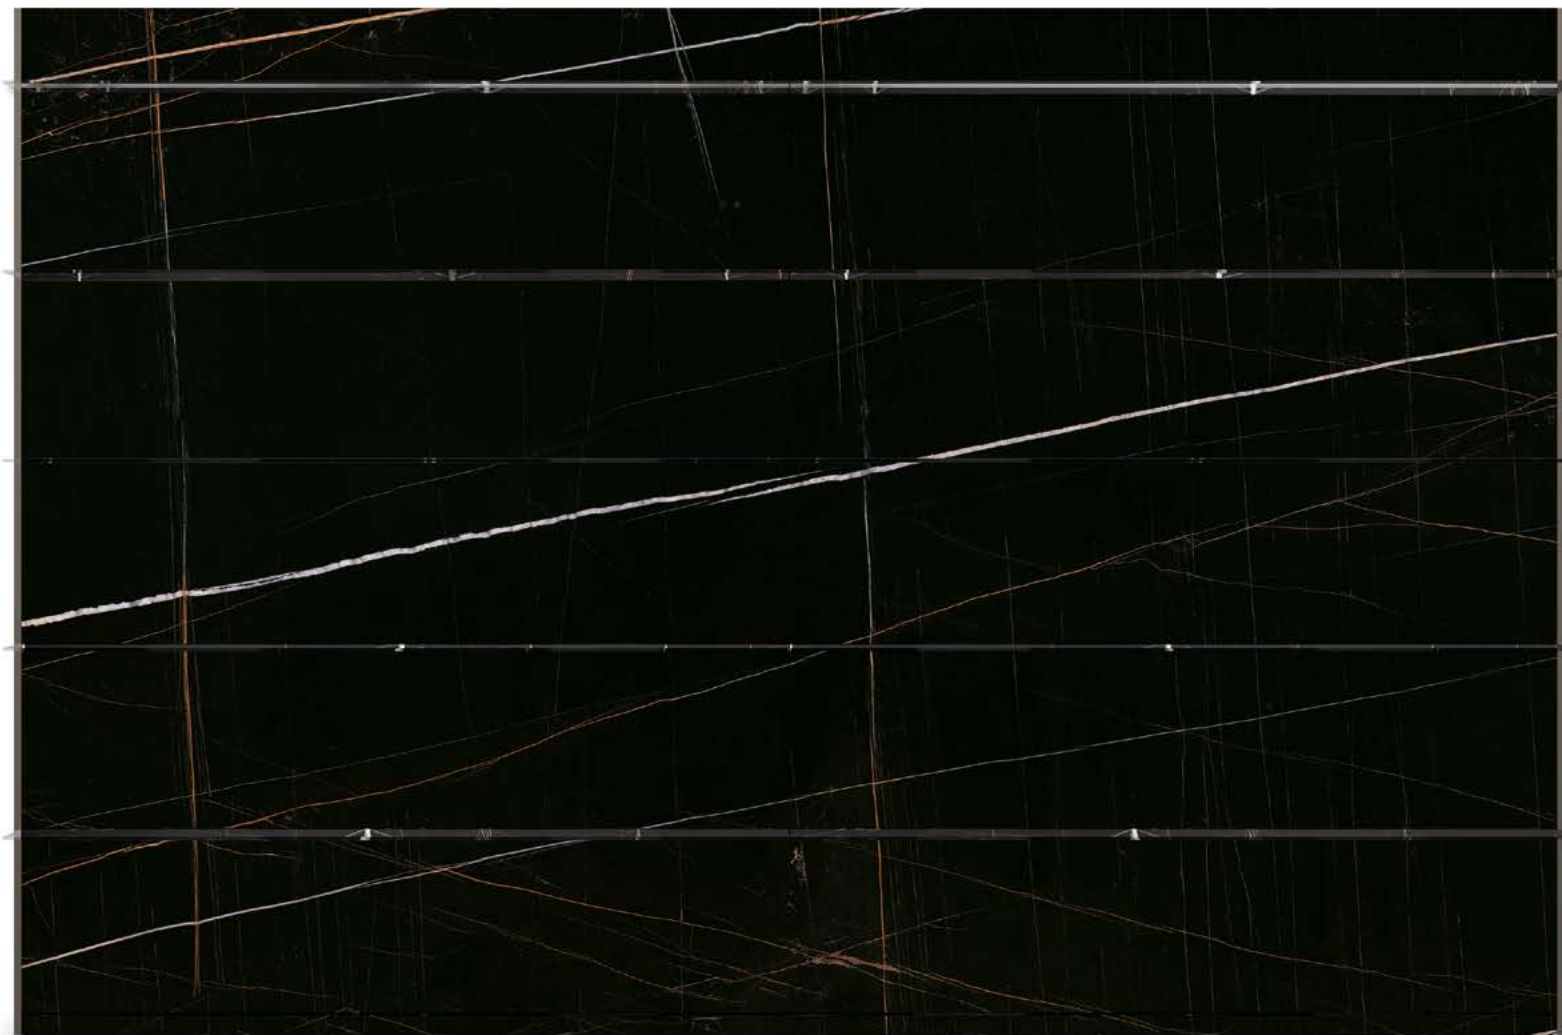

*Reflex presents a new way of conceiving the spaces of the house, not only individual products each with its own character, but more integrated products to create more complex environments for everyday life.*

*System 01 is the first Reflex modular wall system, where wall boiserie, shelves and containers are integrated. The various modularities in height and width allow design and compositional freedom and creates a new product with a distinctive and contemporary features.*
